## DETAILED ACTION

### *Allowable Subject Matter*

Claims 1-51, 53, 54, 56-59, 62-66 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 38, 53, , with the allowable features being; a fluorinated quaternary nitrogen salt into the precursor/internal phase of a process for the formation of the electrophoretic microparticles with the precursor /internal phase is a polymer with a continuous phase of a fluorinated solvent or solvent mixture(claim 1, 38); the electrophoretic microparticles being a fluorinated quaternary nitrogen salt(claim 53); the specific fluorinated quaternary nitrogen salt(claims 65, 66) . Therefore claims 1-51, 53, 54, 56-59, 62-66 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
